New Zealand: Australasian Drug Information Services Pty. Ltd., New Zealand Office, P.O. Box 33-274, Takapuna/Auckland 9

Editorial matter is prepared by our own professionally qualified editorial staff and by honorary specialist consultants from all fields of medicine. While great care has been taken in compiling and checking the information contained in *Drugs*, the publisher cannot accept any responsibility for errors or omissions. The inclusion or exclusion of any product does not mean that the publisher advocates or rejects its use either generally or in any particular field or fields.

Drug nomenclature: Approved names of the British Pharmacopoeia Commission are used throughout the text. When the Commission has not adopted a name for the drug under discussion, the United States Adopted Name (USAN - United States Pharmacopoeial Convention Inc) or the International Non-Proprietary Name (INN - WHO) is used. When available, all three names are given at the head of the evaluations on new drugs and review article sections, and elsewhere in the text as appropriate. Other synonyms (e.g. research code names of new drugs) are also given.

Correspondence: Letters to the editor are welcomed. They should be submitted in duplicate type-written on one side of the paper only and double-spaced with a wide margin. They should be of reasonable length and written in English. Letters will be published if found suitable and will be subject to editorial review and possible abridgement.

Manuscripts: By invitation only. Information on the preparation of manuscripts will be provided to invited authors.

A semi-monthly review of summaries in international French language medical journals

More than 350 journals which appear in several countries and constitute practically the total of all French publications within the medical-scientific sphere are regularly indexed in the 'Répertoire BioMéd'. Each issue is classified into 5 areas of study, namely: fundamental disciplines (biology, biochemistry, physiology, pharmacy), general medicine, general surgery, reviews of specialties by discipline, and veterinary medicine and zoology. 'Répertoire BioMéd' is an indispensable instrument for all practitioners, researchers, teachers and hospital-staff members. Being a panorama of French medical-biological literature, it should be considered as one of the basic works of every international medical bibliography.

Subscriptions: 'Répertoire BioMéd' contains 64 pages per issue and appears twice a month. Subscription prices for the year 1971 (20 issues) are SFr. 200.— / US \$ 52.80 / £ 21.10 / DM 200.— (Regular Delivery, postage included) and SFr. 230.— / US \$ 60.80 / £ 24.30 / DM 230.— (Air Mail).

Subscriptions from France, Benelux, Italy, Spain, Portugal, Canada, Overseas French Territories and members of the French Community should be directed to Diffusion Littéraire et Scientifique, 42bis, Boulevard de La Tour-Maubourg, 75 Paris 7e, France, or 11, Rue Molière, 13 Marseille 1er, France.

Subscriptions from other countries to one of the following addresses:
